

Leave xm alone!!! It is the best thing to happen to radio!!! If this is changed what's next, bread companys trying to ban my bread maker because it will cut into wonder bread profits? The point of being an american is the freedom to choose what I want to listen to and on what. But the lesson that the normal person learns is that big money and corprate intrests out weight my freedom of choise! This sends a grave lesson to our youth. It tells them " don't think big bussiness want's you dumb!" Next thing you know we have a 'c' student running the country!
